Chicago Engineers’ Foundation of the Union League Club of Chicago

Empowering Chicago’s Future Engineers

ChicagoEngineersFoundation.org
Mission

To encourage and empower young people to become the next generation of engineers through scholarship opportunities, outreach to educational institutions, and promoting interest in engineering as a career.

History & Programs

The Chicago Engineers’ Foundation (CEF) evolved from the Chicago Engineers’ Club, an organization established in 1903. In 1969, CEF began a student-centered focus with a scholarship program that has grown for more than 50 years. CEF programming now includes K-12 outreach to inspire young minds, merit-based scholarship awards to support students through their college studies, and career development activities to provide award recipients with the tools to achieve their engineering career goals.
CEF Student Programs

Outreach

Outreach impacted 1,500 K-12 students.

Volunteers made more than 50 outreach visits.
Incentive Awards

Merit-Based Scholarship Awards for Graduating High School Seniors:

- Renewable Annually Throughout College Career
  (a Total Value of $5,000 over 4 years)

- Application Opens January 1, 2021

- Qualifications
  - Graduating high school senior in the city of Chicago
  - Accepted to a 4-year, accredited university engineering program
  - Completed online application
Career Development

Resources and activities available to CEF Award Recipients

- Networking Events
- Resume Evaluations
- Mock Interview Sessions
- CEF Resume Exchange
- Mentoring
Scholarship Resources

Engineering Career & Scholarship Resources

The Chicago Engineers' Foundation maintains a list of scholarships and career resources related to engineering. Please browse the listings below for a variety of potential funding options and initiatives for students planning to pursue engineering careers.

To inquire about adding a new engineering-related submission to this list, send a message to info@chicagoengineersfoundation.org.

Engineering Scholarship Opportunities

ACE Mentors and Scholarships

ACE Chicago Mentor Program takes a "hands-on" approach to helping students learn about careers in architecture, construction, engineering and related professions. Visit ACE Mentors.

The American Institute of Aeronautics and Astronautics

To help support promising future aerospace professionals, the AIAA Foundation annually awards financial aid to undergraduate and graduate students in science or engineering programs related to aerospace. Visit AIAA.

American Nuclear Society

The American Nuclear Society Scholarship Program rewards its members for their academics, services, and leadership excellence. To do so, scholarships are granted to qualified student members of ANS Student Sections who have demonstrated a high commitment to the standards set by the society's constituents.

American Society of Civil Engineers

Scholarships are for undergraduate students. Applicants must be current ASCE Student Members. Visit the ASCE Scholarship page for more information.
